## XTREME DUTY PRO™

### XDP Series

# Heavy Duty Pump

For more information on the XDP  
Call 888-488-9162

The Xtreme Duty Pro™ XDP is designed for use in process type applications including filter press, high pressure, and extended deadheading.

Available in 1-1/2", 2" and 3" port sizes, these pumps are built on the liquid platform of a standard NDP Series pump, but with the world's only mechanically-actuated air motor.

Xtreme Duty Pro™ XDP pumps are capable of running on air pressure equivalents as high as 125 PSI or as low as 5 PSI and provide the same liquid side performance as the NDP Series pumps.

Manufactured with a smaller center section, then the standard NDP Series pump, allowing the XDP pump to be up to 10% lighter; making portability easier.

## The Proof's in the Pump
